SECRET

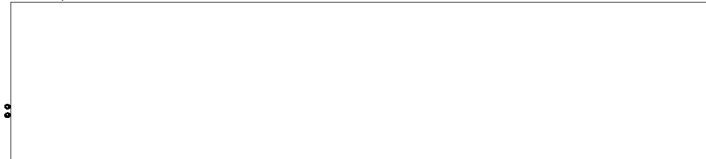

MEMORANDUM FOR: Director of Central Intelligence

VIA : Deputy Director of Central Intelligence

Executive Director

FROM

25X1

SUBJECT : Memorandum for the Vice President on
Technology Transfer

1. Attached for your signature is a memorandum for the Vice President. The memorandum asks that the Vice President raise the technology loss issue with Japanese leaders during his trip to Japan in April 1982.

2. In the same manner as the President did with Chancellor Schmidt in January, we believe it would be beneficial if the Vice President would discuss the United States Government's concern over technology loss to the Soviet Union when he talks to the Japanese political leadership. The memorandum discusses the significance of the issue in Japan and presents examples of important technology the Soviets have acquired in Japan

25X1
25X1

The Vice President's trip presents a unique opportunity for discussion of this topic at the highest political level.
